- R Programming Lab Facilitator / Data Wrangling and Visualization Teacher's Assistant
  - For several hours a week, aided students in their learning of Data Wrangling and Visualization in R Studio.
  - Trouble shoot wide variety of technical and procedural questions.

## Employment Experience

---

### Data Specialist

**March 2018 – Present**

*BYU-Idaho Online Curriculum*

*Rexburg, ID*

- Automated analysis of instructor evaluation and certification reports in R Studio to save time and improve accuracy which improved the overall analysis of prospective instructors and continued monitoring of instructor evaluators.
- Automated analysis of Online Learning Conference registration data in R Studio which allowed managers and leaders to have an up-to-date understanding of the hundreds of instructors participating.
- Steward over thousands of dollar stipend budget and calculated and reported how much was to be sent out to participants at the conference.
- Developed metrics to measure the health of BYU-I's new Online Community platform and created tools in Excel to give insights to the department leaders and to aide in decisions made regarding 2000 online instructors.

### Statistical Consultant

**April 2018 – July 2018**

*RBDC – Field Health Analysis*

*Rexburg, ID*

- Designed and produced a program to aide agriculture specialists in determining the health of their crop based on aerial photos.
- Collaborated with a remote team multiple times a week to effectively identify and solve problems presented in the development of this project.
- Conducted domain research and effectively communicated with specialists within the domain.

### Financial Solutions Representative

**January 2016 – March 2018**

*Progrexion*

*Rexburg, ID*

- Achieved a high standard of quality service by giving each client relevant, useful solutions to their credit problems which resulted in site-wide recognition for quality calls and increased the number of clients served for the company.
- Excelled at performing best practices by setting goals and making plans bi-weekly which resulted in setting the company record of most sales made in a day in Idaho.
- Boosted team morale by running team games and actives which made the office an enjoyable place to work.

### Full-time Service Missionary

**March 2013 – March 2015**

*The Church of Jesus Christ of Latter-day Saints*

*Maritime Provinces, Canada*

- Prepared and taught weekly training meetings for fellow missionaries to promote efficiency within the group.
- Became a fluent French speaker within 6 months.
- Effectively pioneered areas of service by traveling to new remote cities, setting goals and creating plans which paved the way for future missionaries to successfully serve.
